Marine Reported On Worksheet - Main Page
Wednesday, August 13, 2003
Welcome To A-PES, SGT JONES (JONESWILLIAMJ@USMC.MIL)
The Automated Performance Evaluation System (A-PES) recognizes and enables the Marine Corps' vision of a seamless electronic means of creating and submitting Fitness Reports (FITREPS) through the appropriate chain of command and on to Headquarters Marine Corps (HQMC) where, through an interface with the Personnel Management Support Branch's (MMSB) current Back Office System, the reports will be placed onto a Marine's Official Military Personnel File (OMPF) and available to any promotion or school board that may require the information.
A-PES provides a single, accurate, synchronized, and timely system for FITREP information in support of the Marine Corps performance evaluation process.
To Begin Using A-PES:
Choose either the FITREP or the Marine Reported On Worksheet (MROW) button above.
